Impact door buyer checklist

Fill on screen or print. Use one sheet per opening or identical group. Keep all units explicit; do not subtract an assumed manufacturing allowance.

Company / project

Contact name and email

Opening reference / quantity

Destination country / project location

Application / adjoining room uses

Units (mm / inches)

OPENING SURVEY - identify the surfaces measured

Clear width: top

Clear width: middle

Clear width: bottom

Height: left

Height: right

Wall thickness / material

Maximum loaded width

Maximum loaded height

Maximum loaded length

Equipment / daily traffic / direction

Cart contact height / protection needs

Cleaning method, temperature conditions and required project standards

Existing frame, finished floor, swing space, obstacles and other site notes

Attach photographs from both sides and any drawing or door schedule. Identify unfinished floors or planned changes. Ask for the proposed clear passage, final dimensions, fixings and supply scope on the approved drawing.

Save the completed file and send it by email or WhatsApp. This PDF does not submit information automatically and is not an order or installation instruction.
